

## ST. OLAV WATERWAY 2024

**The St. Olav Waterway starts in Turku (Finland) and ends in Eckerö (Åland). It follows the trail pilgrims walked and sailed in the Middle Ages on their way to Nidaros. The St. Olav Waterway is the first pilgrim trail connecting Finland and Sweden over the sea. This trail combines beautiful hikes with island hopping and takes about two weeks. The total distance is 340 kilometers, including ferries. However, the distance that you actually have to walk is approximately 215 kilometers.**

The average distance of the St. Olav Waterway is 20 kilometers per day and that requires a solid walking experience. The walks lead over forest paths, gravel roads, asphalt or grass paths. There are no height differences.

Nordic Pilgrim can help you booking your trip: accommodation, meals and luggage transport.

If you have questions or encounter problems during your trip then there is always an English-speaking contact available – in the region or via an app.
